Infinity Commercial Real Estate Group Founder Lives the American Dream and Helps Many Prosper by Targeting the Commercial Real Estate Sector

Infinity Commercial Real Estate Group Finds Success with Income Producing Apartment Properties

Last Update: 4:35 AM ET Sep 11, 2007

CERRITOS, Calif.--(BUSINESS WIRE)--Infinity Commercial Real Estate Group has experienced great success in today's challenging real estate market by specializing in income producing commercial properties, specifically with multi-unit apartments. Founder Tony Lee, who left Vietnam as a boat person in 1978, shares his success with others and inspires employees.

"Infinity Commercial Real Estate Group specializes in 1031 tax deferred exchanges and seeks to assist individuals in investing in properties that are income-producing," says Tony Lee, Founder of Infinity Commercial Real Estate Group. www.infinitiespecialists.com

"We arrange all details of the transactions from acquisition to debt financing to equity placement." Infinity has been involved in more than 200 commercial transactions totaling an estimated \$350 million in transaction value since I started the company in 2002," said Lee.

"I have been really fortunate. I left Vietnam as a boat person and immigrated to the U.S. After graduating from California State University Long Beach, I entered the mortgage lending industry where I successfully built American Financial Group. I then founded Pacific America Mortgage, an independent mortgage banker located in Long Beach," said Lee.

Remembering his humble start, Tony mentors and empowers his own agents so they too can prosper from the opportunities in the industry. One of his agents is a Russian born immigrant who at 28 is involved in the ownership of five properties.

"I have been very fortunate that Tony took me under his wing and mentored me about the opportunities in this industry," said Ana Clamp, Senior Investment Analyst with Infinity Commercial. "I have been able to prosper both professionally and personally," said Clamp.

"I have been lucky in that although my beginnings were very humble I was able to prosper in this country. I want to share my learning and skills so that my staff can also prosper from the real estate market as I did. It's the American dream," said Lee.

The commercial real estate sector continues to be more robust than the residential sector at this time. According to the National Association of Realtors the Commercial Leading Indicator for Brokerage Activity in the first quarter 2007 rose to the highest level on record.

Infinity Commercial Real Estate Group is located at 13043 E. 166th Street, Cerritos, CA, 90703. For more information visit www.infinitiespecialists.com.
